921 Emerald Bay

921 Emerald Bay

Designed by the award-winning architectural firm of Bassenian-Lagoni Architects, this five bedroom, four and one-half bath Emerald Bay residence boasts riveting whitewater and panoramic ocean views from Dana Point to the sunset drawn behind Catalina Island.

Situated on the widest street on the New Hillside of Emerald Bay, the main living level includes a great room with dining area and view deck, gourmet kitchen with breakfast nook, master suite and bath in addition to a private office with Brazilian cherrywood wainscot and coffered ceiling.

Three children's suites and one guest suite surround an oversized bonus/family room with wet bar and media niche on the lower living level. No expense has been spared in the craftsmanship and construction of this residence.
